  Click here to edit
- 5. Give grade and comment under "Your feedback for student" section, you can also provide voice recording to student for comment. Click "Save changes".

## **Tips**

- NanoGong voice activity uses Java. Java is required to install on the user's computer in order to run this application. Users can download Java at <a href="http://www.java.com/en/download/index.jsp">http://www.java.com/en/download/index.jsp</a>.
- The initial startup time to run NanoGong is long, so be patient when loading it the first time.
- To record a better quality of recording, please do not put the microphone directly in front of your mouth. Put the microphone next to your mouth and leave a bit of space between them.
